CREDIT AVAILABLE

- 2.50 AMA PRA Category 1™ (CME)
- 2.50 ABP MOC Points
- 2.50 ANCC Contact Hours

OVERVIEW

The 10th Annual Pediatric Endocrinology Symposium will provide a broad spectrum of interesting and challenging topics on **growth hormone growth disorders, obesity and new genetic probes** for causes of growth disorders. The most current research findings and practice strategies will be presented by an international faculty. The virtual format will consist of didactic lectures and will feature an interactive discussion via nation-wide webinar platform.

SELECTED LEARNING OBJECTIVES

- **Explain criteria for optimal use of growth hormone** and new formulations of growth hormone in pediatric endocrinology.
- **Interpret use of novel therapies** to treat achondroplasia in children
- **Articulate the best genetic approach** to children with growth disorders.
- **Identify appropriate therapeutic interventions in childhood obesity** and be familiar with benefits and inherent risks of bypass therapies in severe childhood obesity syndromes.
- **Articulate the role of miRNAs in regulating growth** in different in vivo and in vitro models on growth hormone and its receptor, IGFs and their receptors beside current knowledge in humans and highlights how this novel regulatory system mediates human growth.
- **Summarize the optimal methods of evaluating** and treating children with diverse growth disorders safely and effectively.

AGENDA

9:00am	Welcome Paul Saenger, MD – NYU Langone Health Leonard Krilov, MD – NYU Langone Health
9:15am	Growth Hormone Treatment in Pediatrics Michael Ranke, MD – University of Tübingen Children's Hospital
9:45am	The Role of MicroRNAs in Influencing Body Growth and Development Maria Elisabeth Street, MD – IRCCS di Reggio Emilia
10:15am	Break and Virtual Exhibits
10:45am	Successful Treatment of Achondroplasia in Children Klaus Mohnicke, MD – University of Magdeburg Hospital
11:15am	The Pediatric Patient with Obesity: Bariatric Surgery or Not? Ilene Fennoy, MD – Morgan Stanley Children's Hospital at Columbia University
11:45am	Questions and Answers
12:00pm	Adjourn
